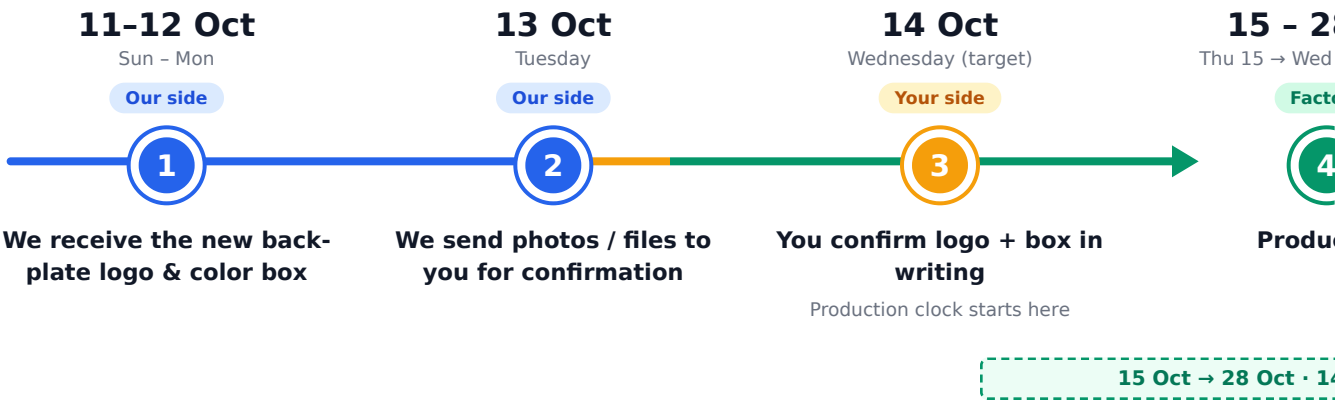
Indicative Timeline — Back-plate Logo & Color Box

Target dates (estimate) · Production starts only after your written confirmation of logo + color box



Key date: confirm by **Wed 14 Oct** → goods ready **Wed 28 Oct**.
Every day the confirmation comes later than 14 Oct, the ready date moves later by the same number of days (e.g. confirm 16 Oct → ready 30 Oct; confirm 20 Oct → ready 3 Nov).

All dates are 2026. Prepared 7 Oct 2026.

These are target dates, not a locked shipping date.
Production starts only after the back-plate logo and color box are confirmed in writing. 28 Oct is ex-factory readiness; shipping is extra.
